Come enjoy some of Palm Beach's most spectacular diving. The water is clear, temps approximately 72 degrees in March. You will see the yearly aggregation of goliath groupers, dive the famous Hole in the Wall, and many more. Experience the amazing and unique diversity of marine life that inhabit the reefs at night. ZZ is offering Open Water Certification for the first two days of this trip for those who need certification before participating in the remaining week of diving. You will have the option to schedule additional dives not included in our package when you get there.
